Release V2025-04-02

Konnect ERP Cloud- Release Notes

Release Note Version :- V2025-04-02

Bug Fixes

Module	Menu	Release No	Summary
Finance & Accounting	Financial Report	REQ/3000082/25-26	Fix in financial report(T) node disappear while selecting it.

Enhancements

Module	Menu	Release No	Summary
Pre-Sales CRM	Lead	REQ/3000174/25-26	Now view all activities for the entire month when selecting a person—no longer limited to a single date. The date column is frozen for easy reference while scrolling, and the lead location is now visible for better context.
Sales	Sales Order	REQ/3000265/25-26	Bug Fix: Bom components are not added to the sales order line -> component tab if items are already present in the different subassemblies.
Purchase	Requisition	REQ/3000223/25-26	You can now assign requisitions to specific buyers, making managing responsibilities easier and streamlining purchase order creation.
HR & Payroll	Job Application	REQ/3002296/24-25	Fix and enhancement in job application and onboard window
Sales	Customer Material DC	REQ/3002099/24-25	implementation of a new Zoom functionality for the Material DC Window, which has been specifically designed to enhance our capabilities in transactions such as Quality Control, Customer Returns, and Invoicing
Production	Production Queue	REQ/3000183/25-26	Renamed the field "User/Contact" to "Operator Name" in the following forms: Production Queue & Shopfloor Queue.
Finance & Accounting	Invoice Run	REQ/3000181/25-26	Select all the invoices and click the action button to process all the invoices to complete from the Invoice run Window.
Sales	Goods Inward/Outward	REQ/3000224/25-26	Now supports Subcontract Receipt and Inventory Move in Goods Inward/Outward while creating GIN
Project Management	Project	REQ/3000318/25-26	You can see the Activity Group Name in the Project Phase activity Tab. To track the activity accurately. Also, the Activity group name is added in the simple upload phase activity

New Features

Module	Menu	Release No	Summary
Production	Production Plan vs Actual	REQ/3000053/25-26	Introducing the Employee Name in the Report Below 1. Production Plan vs. Actual 2. Production Plan vs. Actual (Customer) 3. Production Plan vs. Actual (Product)
Purchase	Create PO from Requisition	REQ/3000359/25-26	Need Selection of Document type in form Create PO from Requisition (Manual)

*Note:

1. The above mentioned Releases will be available only for Cloud Subscription. For On-Premise Users kindly check with our Support team if your server needs to be upgraded.
2. No additional actions required for Cloud Subscription Customers.
3. Above release is only applicable for modules in current Subscription.

Release notes as per Timeline

Konnect ERP Cloud- Release Notes

Release Note Version :- V2025-05-01

Bug Fixes

Module	Menu	Release No	Summary
	Project Plan	REQ/3000348/25-26	Phase Activity Date Filter Not Working Properly in Project Plan Form
	Return to Vendor	REQ/3000291/25-26	Fix: The debit note Invoice is not created from the vendor return.
	Document Explorer	REQ/3000208/25-26	While sorting documents in Document explorer throws error (Refer attached screenshot)
Quality Control	Quality Inspection(Bulk)	REQ/3000369/25-26	While inspecting the product after completing the customer material transaction, two line items with a quantity of 2 were added. Although the inspection was completed in bulk based on the full material delivery quantity, discrepancies appear in the document when using the 'Create Lines' option. Additionally, the 'Customer Material Delivery QC Completed' checkbox is not updated."
Quality Control	Quality Inspection (Single)	REQ/3000355/25-26	While inspecting the product after completing the simple production transaction, one line item with quantity 1 was added. During inspection, when clicking to create lines, the system shows two lines for the same product with the same document number

Enhancements

Module	Menu	Release No	Summary
		REQ/3000239/25-26	Introduced the ECN field in the Manufacturing order (Routing) & Operation tab to capture the deviations
Production	Manufacturing Order	REQ/30002027/24-25	Introduced the Warehouse details in Bom and Workflow routing Operation-wise manufacturing order creation involves breaking down the production process into individual steps (operations) and creating a manufacturing order for each, enabling detailed tracking and control of each stage of production.
		REQ/3000276/25-26	In the payment window, the partner bank is now auto selected the first bank account from the vendor master

New Features

Module	Menu	Release No	Summary
	Employee	REQ/3000402/25-26	Need field For LIC No and Gratuity No In Personal Information Trainer Name Required in Training Tab (From Employee Master)
		REQ/3000220/24-25	New Menu Report For Project Weightage Project Detail Parameter : Date Range, Sales Rep Project Phase Report : Project Project Phase Activity Report : Project , Phase
