Consignment return request header

The screenshot shows a software interface for a 'Consignment Return Request' header. The form is organized into two columns. The left column contains fields for Client (Sandbox), Document No (1000019), Document Type (RMA), Description, Customer Warehouse (BLMH), and Document Status (Completed). The right column contains fields for Organization (Manufacturing Discrete), Transaction Date (22/01/2024), User/Contact (Logesh D), and Account Date (22/01/2024). Below these fields are several checkboxes: Complete, Sales Transaction, Approved, Processed, Approved Level 1, and Approved Level 2. At the bottom of the form, there are two buttons: 'DocumentAction' and 'Posted'.

Critical Fields:

- 1) Transaction date : The Transaction Date indicates the date of the transaction.
- 2) User contact : The User identifies a unique user in the system. This could be an internal user or a business partner contact
- 3) Customer warehouse : It is used to select the customer warehouse.
- 4) Account Date : The Accounting Date indicates the date to be used on the General Ledger account entries generated from this document. It is also used for any currency conversion.

Critical & one-time setup fields:

1) Organization: This field is used to select the organization

2) Target Document Type- This Field is used to select the type of document that you are going to process

Non-Critical Fields:

1) Description : Optional short description of the record.

Zoom conditions:

1) Consignment Return

Return request Line

The screenshot shows the SAP Consignment Return Request Line form. The form is divided into two main sections: Client and Organization. The Client section includes fields for Client (Sandbox), Consignment Return Request (1000019_BLMH), Description, Line (10), Product (Green bin_Green bin), and Quantity (3). The Organization section includes fields for Organization (Manufacturing Discrete), Customer Warehouse (BLMH), Attribute Set Instance, Business Partner, and Partner Location. There are also checkboxes for 'Processed' and 'Complete'.

Client	Sandbox	Organization	Manufacturing Discrete
Consignment Return Request	1000019_BLMH	Customer Warehouse	BLMH
Description		Attribute Set Instance	
Line	10	Business Partner	
Product	Green bin_Green bin	Partner Location	
Quantity	3		

Critical Fields:

- 1) Line no : Indicates the unique line for a document. It will also control the display order of the lines within a document.
- 2) Product : Any product that needs to be returned should be noted here.
- 3) Quantity : The Quantity indicates the number of a specific product or item for this document.
- 4) Attribute set Instance : The values of the actual Product Attribute Instances. The product level attributes are defined on Product level.
- 5) Customer Warehouse : OEM warehouse will be displayed based which is mentioned in header.
