

Copy Price to Standard Cost

- Introduction
- Process - Copy Price to Standard Cost

Introduction

The process of "Copy Price to Standard Cost" involves updating the standard cost of a product with its current market or selling price.

Business process

This adjustment is crucial for businesses seeking alignment between their pricing strategy and internal cost structures. By copying the prevailing market price to the standard cost, organizations can ensure that their cost estimates accurately reflect the economic reality and market conditions.

Process - Copy Price to Standard Cost
