Sales order from customer PO

Forms and Process

Sales order From Customer PO

The screenshot shows a software interface for creating a sales order. At the top, there is a navigation bar with tabs: 'Home (81)', 'Summary', and 'Sales Order from Customer PO' (which is active). Below the navigation bar, the main area contains the question 'Do you want to start the Process?'. Underneath this question are four red-outlined input fields, each with a red label and a dropdown arrow: 'Customer PO', 'Target Document Type', 'Price List', and 'Warehouse'. Below these fields is a checkbox labeled 'Run as Job'. At the bottom of the form, there is a 'Saved Parameters' section with a dropdown menu and two icons (a save icon and a trash icon). In the bottom right corner, there are two buttons: 'OK' with a green checkmark icon and 'Cancel' with a red X icon.

Parameters :

1. **Customer PO** :- Drop Down to select Customer PO for which user wants to generate Sales order.
2. **Target Document Type** :- Drop Down to choose sales order type For e.g (job order, Sales order-job, sales order)
3. **Price List** :- In a company Price lists are different for domestic and export users. The price lists names be like Purchase INR ,Sales INR and Purchase Euro , Sales Euro.
4. **Warehouse** :- This field is for Product storage purposes, Select a warehouse where the final product is stored.

Process Use :

The process Sales Order from customer PO is use to generate sales order.
