Introduction

Introduction

Overview

1. Department master is used to create the multiple departments for the employees.

Business Case

1. In a company more departments are available like HR,Manufacturing,Accounts,Sales.For this purposes we can create multiple departments using this department master.

Tab

Tab

Department Type

The screenshot displays the KONNECT ANALYTICS web application interface. The top navigation bar includes the logo, a search bar with the text 'departm', and user information for 'Prasanth P@Konnnect Demo*/Konnnect Demo Admin' with links for Feedback, Profile, Preference, Change Role, and Log Out. The left sidebar contains 'Favourites' and 'Recent Items' sections. The main content area is titled 'Department Type' and shows a form for creating or editing a department. The form fields are: 'Client' (set to 'Konnnect Demo'), 'Organization' (a dropdown menu), 'Name' (containing 'Accounts'), 'Description' (a large text area), and an 'Active' checkbox which is checked. A toolbar with various icons is located above the form.

Critical Fields :

1. Name : Used to mention the department name. The name of an entity (record) is used as an default search option in addition to the search key. The name is up to 60 characters in length.
