# Maintenance

The screenshot shows a web application interface for generating maintenance orders. At the top, there is a navigation bar with 'Home (34)' and 'Maintenance' tabs. Below the navigation bar, the main content area has a title 'Generate Planned Maintenance Orders from Today until the interval specified in the parameters' and a subtitle 'Generate Planned Maintenance Orders from Today until the interval specified in the parameters'. There are three input fields: 'Organization' (a dropdown menu), 'Duration Unit' (a dropdown menu), and 'Interval' (a text input field with a calendar icon). Below these fields is a checkbox labeled 'Run as Job'. At the bottom of the form, there is a 'Saved Parameters' section with a dropdown menu, a save icon, and a delete icon. In the bottom right corner, there are 'OK' and 'Cancel' buttons.
