Introduction

Overview

This screen used to identify the maintenance order based on the parameter's provided by the user.

Tabs

Tabs

Maintenance

The screenshot shows a web application window titled "Maintenance". At the top, there are tabs for "Home (34)" and "Maintenance". Below the tabs, the main heading reads "Generate Planned Maintenance Orders from Today until the interval specified in the parameters". Underneath, there are three input fields: "Organization" (a dropdown menu), "Duration Unit" (a dropdown menu), and "Interval" (a text input field with a calendar icon). Below these fields is a checkbox labeled "Run as Job". At the bottom left, there is a "Saved Parameters" section with a dropdown menu and two icons (a save icon and a trash icon). At the bottom right, there are two buttons: "OK" and "Cancel".

Critical Fields

organization - Mention the organization

Duration unit - Mention duration unit

Interval - User can mention the interval

Non-Critical Fields

NA
