

Product

The screenshot shows the Konnect Analytics web application interface. The top navigation bar includes the logo, a search bar, and user information (Prasanth P@Konnect Demo). The main content area displays a form for creating a record. The form fields are: Client (Konnect Demo), Node (ASSEMBLY), Sequence (10), Product (Copper (Cu)_Copper (Cu)), Organization (empty), and Quantity (1). There is also a checkbox for 'Is Subcontracting' which is checked. The breadcrumb navigation shows 'Manufacturing Routing > Operations > Product'.

We should fill this tab only when we select the operation is subcontract.

Critical Fields

1. Product : We should select the subcontracting product from the product master.
2. Quantity : The Quantity indicates the number of a specific product or item for this document.

Critical & onetime setup fields

Non-Critical Fields

1. Sequence : The Sequence indicates the order of records
