Form Execution

The screenshot shows a web application interface for matching documents. At the top, there are tabs: 'Home (65)', 'Summary', and 'Matching PO-Receipt-Invoice' (which is active). Below the tabs, the form is divided into two main sections: 'Invoice' and 'Receipt'. The 'Invoice' section contains fields for 'Match From' (set to 'Invoice'), 'Search Mode' (set to 'Not Matched'), 'Organization' (a dropdown), 'Business Partner' (a text field with a user icon), 'Date from' (a date picker), 'Match To' (set to 'Receipt'), 'Product' (a text field with a refresh icon), and 'Date to' (a date picker). A 'Search records' button is located to the right of the 'Date to' field. Below these fields, there are three checkboxes: 'Same Business Partner' (checked), 'Same Product' (checked), and 'Same Quantity' (unchecked). The 'Receipt' section is currently empty. At the bottom of the form, there are three input fields labeled 'To be matched', 'Matching', and 'Difference'. A 'Process' button is located at the bottom right of the form.
