

Operations Master

The screenshot displays the 'Operations Master' application window. On the left, there are 'Favorites' and 'Recent Items' panels. The main area shows a 'Record saved' message and a form for an operation. The form includes fields for Tenant (Sandbox), Search Key (1000004), Organization (Manufacturing Discrete), Resource (CNC Lathe), Operation Name (Cutting), sequenceno (70), Business Partner (Embac equipments), Description (Cutting from outside), Comments (Cutting from outside), and an Active checkbox which is checked.

Tenant*	Sandbox	Organization*	Manufacturing Discrete
Search Key	1000004	Resource*	CNC Lathe
Operation Name*	Cutting	sequenceno	70
	<input checked="" type="checkbox"/> Is Subcontracting	Business Partner	Embac equipments
Description	Cutting from outside		
Comments	Cutting from outside		
	<input checked="" type="checkbox"/> Active		

Critical Fields

1. Operation Name : It is used to mention the name of the operation.
2. Resource : It is used to Select the manufacturing work center (previously defined) where you want to execute the operation. For the product costing, the Resource rate is taken from the cost element introduced in the window Product Costing (Refer resource master).

Critical & onetime setup fields

Non-Critical Fields

1. Search Key: Used to maintain unique name or code for the product
2. Sequence Number: o apply sequence for the phase of project to be followed. It will be auto-generated by system but user can edit accordingly
3. Is-Subcontracting : When we select this check box this operation is used for the

subcontracting process.

4. Active:- Checkbox for Active or in active status of substitute operation
 5. Business Partner : We should mention the Business partner name when we select the Is-Subcontracting check box (Refer Business Partner Master)
 6. Description: This is used to mention the description URL
 7. Comments: Use to note Comments Which are required with this document
