Introduction

Product attributes refer to the specific features that describe a product. These attributes help provide detailed information about the product, aiding in its identification, classification, and understanding. Common product attributes include:

Process- Product Attribute Grid

The screenshot shows a web application window titled "Home (34) Product Attribute Grid". The interface has a sidebar on the left with a "Selection" tab and an "Attribute Grid" tab. The "Attribute Grid" tab is active, displaying four dropdown menus: "Attribute 1", "Attribute 2", "Price List", and "Warehouse". Each dropdown menu has a downward arrow icon. The main area of the window is empty. In the bottom right corner, there are two buttons: a green checkmark button and a red X button.

Attribute 1: user have to select the attribute 1 here

Attribute 2: user have to select the attribute 2 here.

Price list : user have to select the price list

warehouse: user have to select the suitable warehouse here
