

# Custom Fields

The screenshot shows the Konnect Analytics web application interface. At the top, there's a header bar with the Konnect Analytics logo, a search bar, and user information (Prasanth P@Konnect Demo, Konnect Demo Admin). Below the header, there's a navigation bar with tabs for Home (7), Summary, Product: 1000000 Copper Pipes, and Custom Column: Custom Colu... The main content area displays the 'Product > Custom Fields' configuration page. It shows a 'Record saved' message and a form with the following fields: Client (Konnect Demo), Organization (\*), Sequence (empty), Product (1000000\_Copper Pipes), Description (empty), Value Column (empty), and an 'Active' checkbox (checked). The 'Custom Columns' section shows 'Custom Column 1'.

## Critical Fields

## Critical & onetime setup fields

1. Custom Columns : This field is used to mention the additional specifications.(Refer Custom column Master window)
2. Organization Field- This Field is used to select the organization which you are going to process the document.

## Non-Critical Fields

1. Sequence : The Sequence indicates the order of records
2. Value Column : The Value Column contains the value data for the chart

## Zoom condition's

## Validation
