

Quality Parameter

The screenshot shows the 'Quality parameter' form in the Konnect Analytics application. The form is titled 'Quality Parameters: Length ...'. It includes fields for 'Client' (Konnect Demo), 'Organization' (Manufacturing Discrete), 'Search Key' (Length), 'Name' (Length), 'Description' (empty), 'Parameter type' (Quantitative Parameter(Number,volume,etc)), 'Parameter unit' (Meter), and 'Data Type' (Numeric). There are also checkboxes for 'Tolerance Accepted' and 'Active', both of which are checked. The form is part of a larger application interface with a sidebar on the left and a top navigation bar.

Critical Fields

1. Name : This field is used to mention the quality parameter name.

Critical & onetime setup fields

1. Parameter Type : Used to mention the parameter type. (Ex : (a)Qualitative Parameter(Good,Bad,etc) : This is based on the visual inspection, (b) Quantative Parameter(Number,volume,etc) : This is based on the Particular parameters like , Length,Width,Weight)
2. Parameter Unit : Used to select the unit of the Parameter from the UOM master.
3. Data Type : Used to select the data type.(Boolean,Integer,Numeric,Text)

Non-Critical Fields

1. Tolerance Accepted : If we select this check box it will accept the tolerance value .
