# Introduction

# Introduction

## **Introduction**

The Returns Merchandise Authorization (RMA) application provides everything you need to manage customer returns, including recording and documenting RMA requests, receive returned goods, send replacement goods, and approve or deny claims. Therefore Different RMA types are there.

---

## **Business Example**

RMA Type used in Transactions such as Damage, Return, Exchange, Credit, Etc.

# Tabs

Tabs

# RMA Type

The screenshot shows a web application interface with a top navigation bar containing tabs: 'Home (63)', 'Summary', 'RfQ Topic: Automobile parts', and an active tab '\*RMA Type'. Below the tabs is a toolbar with various icons for document management. The main content area is titled 'RMA Type' and contains a form with the following fields: 'Client' (a dropdown menu showing 'Konnect Demo'), 'Organization' (a dropdown menu with a red border), 'Name' (a text input field with a red border), 'Description' (a text input field), and 'Comment/Help' (a larger text input field). At the bottom of the form is an 'Active' checkbox, which is currently checked.

## Critical Fields

1. Organization: This field is used to select the organization
2. Name: Name of RMA Type For Example Damage,Exchange,Credit,Refund,Return only, Etc.

## Non-Critical

1. Description: Used to note Specifics or details about RMA type
2. Comment/Help: Comments or Help items according to RMA Type
3. Active Check box to keep active or inactive status of RMA Type
