Service Activity Master

The screenshot shows the 'Service Activity Master' application window. The title bar indicates 'Home (34)' and 'Service Activity Master: As...'. The interface includes a toolbar with various icons for file operations and a navigation pane on the right showing '3/6' records. The main form area contains several input fields: 'Client' (Sandbox), 'Organization' (a dropdown menu), 'Name' (Assembly line check), 'Part Type' (a dropdown menu), 'Duration' (1), 'Duration Unit' (Day), 'Product' (a dropdown menu), and a large 'Description' text area. Below the form, there is a tabbed interface with 'Activities' and 'Activity Parts/Labor' tabs. The 'Activities' tab is active, showing a table with 0 records. The table has columns: Name, Description, Part Type, Duration, Duration Unit, Active, Product For Labor Charges, Price, and Activity Group. The table is currently empty, displaying 'No Records found'.

Critical Fields:

- 1) client - This field is used to mention the client name.
- 2) organization: This field is used to select the organization

Critical & one-time setup fields:

- 1) Part Type - This is a user-defined field utilized for classification of service activity

Non-Critical Fields:

- 1) Duration- This field is used for mentioning the estimated time.

2) Duration unit - This field is capturing the UOM for the duration
