Tabs

Service Activity Master

The screenshot shows a web browser window with the title 'Service Activity Master: As...'. The browser's address bar shows 'Home (34)'. The page title is 'Service Activity Master'. The form contains the following fields:

- Client: Sandbox
- Organization: *
- Name: Assembly line check
- Part Type: [Dropdown]
- Duration: 1
- Duration Unit: Day
- Product: [Text]
- Description: [Text Area]

Below the form, there is a tabbed interface with 'Activities' selected. Underneath, there is a table with the following columns: Name, Description, Part Type, Duration, Duration Unit, Active, Product For Labor Charges, Price, and Activity Group. The table currently displays 'No Records found'.

Critical Fields:

- 1) client - This field is used to mention the client name.
- 2) organization: This field is used to select the organization

Critical & one-time setup fields:

- 1) Part Type - This is a user-defined field utilized for classification of service activity

Non-Critical Fields:

1) Duration- This field is used for mentioning the estimated time.

2) Duration unit - This field is capturing the UOM for the duration
