

Shift Scheduler

The screenshot shows a web application interface for a 'Shift Scheduler'. At the top, there is a browser window with a single tab titled 'Shift Configuration: oct 1...'. Below the browser window, there is a navigation bar with a breadcrumb trail 'Shift Configuration > Shift Scheduler' and a page indicator '1/1'. The main content area contains several form fields arranged in two columns. The left column includes fields for 'Client*' (XYZ Foundation), 'Business Partner' (Mohan), 'Position' (Purchase-Lead), 'Shift*' (Day Shift), and a checked 'Active' checkbox. The right column includes fields for 'Organization*' (*), 'Department' (Purchase), and 'AttendanceType' (Attendance 1). Below these fields is a 'Description' text area. At the bottom left, there is a label 'Ka_ShiftConfiguration' followed by a field containing 'oct 1st week'.

CRITICAL FIELDS:

Business Partner: We can Choose the employee's name

Department: Based on the Employee Department will be automatically fetched

Position: Based on the Employee Position will be automatically fetched

Attendance Type: Based on the Employee attendance type will be fetched from the salary Structure

Shift: We can define the particular shift for the particular period mentioned in the header

NON_CRITICAL FIELDS:

Client: It will display the client name

Organization: It will show the Organization within the Client

Description: We can maintain it for reference
