

# Shift Scheduler

The screenshot shows a web application interface for 'Shift Scheduler'. The browser tab is 'Shift Configuration: oct 1...'. The breadcrumb navigation is 'Shift Configuration > Shift Scheduler'. The interface contains several input fields: 'Client\*' with value 'XYZ Foundation', 'Organization\*' with a dropdown arrow, 'Business Partner' with value 'Mohan', 'Department' with value 'Purchase', 'Position' with value 'Purchase-Lead', 'AttendanceType' with value 'Attendance 1', 'Shift\*' with value 'Day Shift', and an 'Active' checkbox which is checked. There is also a 'Description' text area and a 'Ka\_ShiftConfiguration' dropdown with value 'oct 1st week'. The top of the interface has a toolbar with various icons for navigation and editing.

## CRITICAL FIELDS:

**Business Partner:** We can Choose the employee's name

**Department:** Based on the Employee Department will be automatically fetched

**Position:** Based on the Employee Position will be automatically fetched

**Attendance Type:** Based on the Employee attendance type will be fetched from the salary Structure

**Shift:** We can define the particular shift for the particular period mentioned in the header

## NON\_CRITICAL FIELDS:

**Client:** It will display the client name

**Organization:** It will show the Organization within the Client

**Description:** We can maintain it for reference
