

Form and process

- Create Package plan

Create Package plan

The screenshot shows a web application window titled 'Create Package Plan'. The window has a top navigation bar with tabs: 'Home (112)', 'Summary', and 'Create Package Plan' (which is active). Below the navigation bar, the main content area is titled 'Create Package for Order'. It contains several input fields with labels: 'Shipment Package Plan', 'MPS', 'Order', 'Sales Order Line', 'No Packages', and 'Shipper'. Each field has a dropdown arrow on the right. The 'Order' and 'Shipper' fields are highlighted with a red border. Below these fields is a checkbox labeled 'Run as Job'. At the bottom of the form, there is a 'Saved Parameters' section with a dropdown menu and two icons (a folder and a document). On the bottom right, there are two buttons: 'OK' (with a green checkmark icon) and 'Cancel' (with a red X icon).

Parameters :

- 1) Shipment package plan : It is used to select the shipment package document no.
- 2) MPS : It is used to display box count details.
- 3) Order : It is used to select the sales order document no.
- 4) Sales order line : It is used to select the sales order line details.
- 5) No packages : It is used to mention package count details
- 6) Shipper : It is used to select the shipper details (Ex - Travels,courier)

Process Use :

By using this process we can able to create shipment package plan based on sales order document.
