

Form and process

- Create Package

Create Package

The screenshot shows a web application interface for creating a shipment package. At the top, there is a navigation bar with tabs: 'Home (112)', 'Summary', and 'Create Package' (which is active and highlighted in orange). Below the navigation bar, the main heading is 'Create Package for Shipment'. The form contains three input fields: 'Shipment/Receipt' (a text box with a red border and a cursor), 'Shipper' (a dropdown menu with a red border and a downward arrow), and 'No Packages' (a text box with a red border and the value '1'). There is a checkbox labeled 'Run as Job' below these fields. At the bottom of the form, there is a 'Saved Parameters' section with a dropdown menu and two icons (a folder and a document). On the right side of the bottom bar, there are two buttons: 'Start' (with a green checkmark icon) and 'Cancel' (with a red X icon).

Parameters :

- 1) Shipment/Receipt : It is used to mention shipment customer document no.
- 2) Shipper : It is used to select the shipper details which is already created in master.
- 3) No Packages : It is used to mention package count.

Process Use :

By using this process we can able to convert shipment customer document into shipment package with the help of shipment document no.
