Tax Category

The screenshot shows the 'Tax Category' form in the Konnect Analytics application. The interface includes a top navigation bar with the 'KONNECT ANALYTICS' logo, a search bar, and user information. A sidebar on the left contains 'Favourites' and 'Recent Items' sections. The main content area displays the 'Tax Category' form with the following fields and options:

- Client:** A dropdown menu showing 'Konnect Demo'.
- Organization:** A dropdown menu with an asterisk (*) indicating a required field.
- Name:** A text input field containing 'GST 5%'.
- Description:** A text input field.
- Active:** A checkbox that is checked.
- Default:** A checkbox that is checked.
- Is Withholding:** An unchecked checkbox.

Below the form, there is a section labeled 'Data requested'.

Critical Fields:

1. **Name:** It is used to mention the tax category name. The name of an entity (a record) is used as a default search option in addition to the search key. The name is up to 60 characters in length.

Critical & one-time setup fields:

1. **Organization Field-** This Field is used to select the organization in which you are going to process the document.

Non-Critical Fields:

1. **Default:** The Default Checkbox indicates if this record will be used as a default value.
2. **Is Withholding:** This is used to mention the withholding or not.

Zoom conditions:

1. We can zoom and find the product, item master, Tax Rate and product Planning Data by using this Tax category.
