Introduction

1. The window is used to maintain the TDS Category Name as a master

Tab

Tab

TDS Category

The screenshot shows a web application interface for managing TDS Categories. At the top, there is a navigation bar with tabs: 'Home (54)', 'Summary', and 'TDS Category: TDS 1 x'. Below the navigation bar is a toolbar with various icons for actions like add, edit, delete, and search. The main section is titled 'TDS Category' and contains a form with the following fields:

- Client**: A text input field with the value 'Konnect Demo'.
- Organization**: A text input field with an asterisk (*) indicating it is required.
- Name**: A text input field with the value 'TDS 1'.
- Description**: A text input field.
- Default**: A checkbox labeled 'Default'.
- Active**: A checkbox labeled 'Active' which is checked.

At the bottom right of the form, there is a 'Data requiered' label and a pagination indicator showing '1/1'.

Fields :

1. Name : Used to give the TDS Category name.
2. Description : Used to mention the extra details about the category.
3. Default : It is used to set a default category.
4. Organization : It is an one time setup field which is used to be select the org name for this category.
